FIBRE CHEMISTRY

Volume 28, Numbers 1-6, 1996

(A translation of *Khimicheskie Volokna*)

Engl./Russ.

Volume 28, Number 1, January-February, 1996

The table of contents lists all material that appears in the original Russian journal. Items originally published in English or generally available in the West are not included in the translation and are shown in brackets. Whenever possible, the English-language source containing the omitted items is given.

NEW METHODS OF FABRICATION OF CELLULOSE FIBRES

Some Comments on the Problem - S. P. Papkov 1 10

Processing of Cellulose via Highly Concentrated "Solid Solutions" - L. K. Golova 5 13

Characteristics of the Amine Oxide Process Developed at the Turing Institute of Textiles and Plastics - Ch. Michels, R. Maron, and E. Taeger 17 24

New Types of Cellulose Materials Obtained by an Alternative Spinning Method - C. Burger, R. Maron, C. Michels, and K. P. Mick 22 35

[Lenzing Lyocell - M. Marini, F. Firgo, and M. Eibl (*Lenzinger Berichte*, 9/94, pp. 53-56) ..... 27]

[Cellulosic Filament Yarn from the NMMO Process - R. Kruger (*Lenzinger Berichte*, 9/94, pp. 49-52) ..... 31]

CHEMISTRY AND TECHNOLOGY OF CHEMICAL FIBRES

Some Problems and Characteristics of Processing Caprolactam into Fibres Caused by Its Quality - N. A. Borshch, A. I. Mart'yanov, O. R. Kupinskii, S. F. Andreichenko, V. I. Ul'yantseva, and M. V. Vasil'eva 28 39

Effect of a Thermomechanical Action on Mesophase Formation in an Isotropic Pitch Melt - V. A. Platonov, L. P. Braverman, and V. Ya. Varshavskii 33 43

Theoretical and Practical Principles of Technology for Fibreing of Chemical Fibre and Filament Wastes (Review) - N. A. Lebedev 36 45

MATERIALS TECHNOLOGY

Effect of Humidity on the Creasability of Fabrics Based on Chemical and Flax Fibres - E. E. Karpova, K. E. Perepelkin, and N. A. Smirnova 43 50

Realization of the Strength of Armos Fibres with Different Acidity in Epoxy Plastics - S. V. Kotomin, A. A. Basharov, V. G. Bova, and E. M. Sapozhnikov 48 53

Volume 28, Number 2, March-April, 1996

CHEMISTRY AND TECHNOLOGY OF CHEMICAL FIBRES

Hollow Fibres for Baromembrane Separation of Liquids - G. A. Budnitskii and L. P. Perepechkin 51 3

New Fibres Prepared from Cellulose–Aqueous Solution of Sodium Hydroxide Systems (Review) - M. M. Iovleva 61 11

Carbon Fibres from the Gas Phase (Review) - V. Ya. Varshavskii 65 15

Prediction of the Change in Density in Systematic Series of Fibre-Forming Polymers - A. T. Kynin, S. F. Grebennikov, K. E. Perepelkin, and L. P. Andreeva 73 21

	Engl./Russ.	
Effect of Vapor Phase Pressure in Synthesis of Polyamide-6 on Its Indexes - I. M. Vlasov, S. M. Yagofarov, and V. F. Lednik	76	23
PROPERTIES AND USE OF CHEMICAL FIBRES		
Some Trends in Processing of Chemical Fibre Wastes - N. A. Lebedev	78	24
Evaluation of the Properties of Carbon Fibre Packing in Use Applied to Sealing Technology - I. I. Nachovnii, A. I. Burya, M. E. Kazakov, V. V. Il'yushenko, L. D. Vazheva, and V. M. Trushnikov	82	27
TEXTILE AUXILIARY SUBSTANCES		
Textile-Auxiliary Substances in Production of Viscose Fibres (Review) - Z. G. Serebryakova	85	29
Surfactants and Modifiers in Production of Viscose Fibres (Review) - Z. G. Serebryakova and L. G. Tokareva	91	34
Study of the Possible Use of Imported Products in Fabrication of High-Modulus Viscose Fibre - T. A. Lyubova and L. G. Tokareva	95	37
FIBRE COMPOSITE MATERIALS		
How to Assess Adhesion with the Results of Tests of Composites with a Single Monofilament - Yu. G. Korabel'nikov and I. A. Rashkovan	98	39
High-Strength Heat-Resistant Organoplastics Based on Highly Functional Epoxyamine Resins - N. A. Yurechko, S. P. Rodina, G. I. Savchenko, V. A. Lipskaya, A. N. Sorokina, and M. S. Klebanov	104	44
Fabrication of Prepregs from Carbon Fibre Ribbons with a Standardized Concentration of Binder - V. A. Bushtyrkov, M. S. Trizno, and V. Ya. Glinner	107	46
GLASS FIBRES AND MATERIALS BASED ON THEM		
Rotor-Jet Mixing Installation for Preparation of Oiling Agents - L. V. Toropina, E. P. Pun'ko, N. I. Parafenko, V. M. Dyaglev, Yu. M. Rassadin, and L. A. Budnik	111	49
Purification of Wastewaters from Glass Fibre Production - L. V. Toropina, E. P. Pun'ko, L. A. Budnik, V. M. Dyaglev, Yu. M. Rassadin, and N. I. Parafenko	115	52
MACHINES AND EQUIPMENT		
New Developments in Automated Planning Systems - I. É. Bobina	118	54
Creation of New Equipment for Production of Polycaproamide - I. É. Bobina	119	55
Automated System for Design Calculations of Equipment for Chemical Fibre Plants - S. N. Bobryshev, V. V. Kiselev, G. I. Fridman, and A. N. Zhir	121	56

Volume 28, Number 3, May-June, 1996

CHEMISTRY AND TECHNOLOGY OF CHEMICAL FIBRES		
Orientation of Poly(ethylene terephthalate) in High-Speed Spinning Using a Heating Zone - V. É. Geller	127	4
Characteristics of Transformation of α-Oxide Groups of Graft Polyglycidyl Methacrylate in Reacting with Low-Molecular-Weight Amines during Fabrication of Polycaproamide Chemisorption Fibre - N. Yu. Mosina, T. V. Druzhinina, M. Yu. Lazarev, and L. S. Gal'braikh	130	6
Laser Heating of Fibres during Continuous Processing - B. M. Tarakanov	136	10
Causes of Secondary Gel Particles in Production of Polyacrylonitrile Fibres - A. A. Serkov, K. E. Perepelkin, and A. T. Serkov	141	13
Characteristics of the Liquid Crystalline State of Cellulose Derivatives - V. E. Gul', O. A. Khanchich, and N. A. Savchenko	145	15

	Engl.	Russ.
Analysis of the Evolution of Production of Hydrated Cellulose Textile Fibres - S. P. Papkov	148	17
PROPERTIES AND USE OF CHEMICAL FIBRES		
Effect of the Conditions of Laser Treatment on the Thermal and Strength Indexes of Polyacrylonitrile Fibres - B. M. Tarakanov	151	20
Effect of Moisture on the Strength of Stiff-Chain Polyheteroarylene Fibres - V. G. Makarov, S. M. Kashin, and R. M. Sinel'nikova	156	23
Sorption of Azo Dyes by Polyamide Chemisorption Fibre - T. V. Druzhinina, N. N. Furman, S. A. Larin, L. A. Nazar'ina, and V. G. Zaikov	159	26
MATERIALS SCIENCE		
New Studies on Spinning and Materials Science of Chemical Fibres (Review) - N. A. Lebedev	163	29
Physiological Properties of Textile Fabrics Made of Polypropylene Fibres - A. Murarova and M. Jambrich	167	32
FIBRE COMPOSITE MATERIALS		
Difficulty Inflammable Organoplastic - M. V. Osipova and V. F. Tsarev	171	35
Effect of Sorption Moisture in Aramid Fibres on the Properties of Organoplastics Based on Thermosetting Binders - R. L. Mokienko, N. G. Cherkasova, O. I. Mikhailova, and A. V. Protasenya	175	38
Binders Based on Modified Polyetheretherketones for Composite Materials - V. A. Pankratov, E. V. Pisanova, L. M. Mitina, V. A. Dovgyalo, and S. F. Zhandarov	180	41
Evaluation of the Surface Properties of Thin Fibres in Production of Thermoplastic Composites - G. S. Golovkin, A. K. Shibanov, M. I. Stepanova, and V. V. Antonov	183	43
GLASS FIBRES AND MATERIALS BASED ON THEM		
Interaction of a Moving Fibre Having Flexural Rigidity with a Friction Body - V. I. Kiselev	186	46
Automated Testing System for Textile Enterprises - V. I. Kiselev	192	49
RECYCLING AND INDUSTRIAL ECOLOGY		
Some Problems in the Quantitative Estimation of the Degree of No-Waste Production (Cleanness) of Chemical Plants - E. I. Khodorov and V. B. Kvasha	195	52
Capacity of Vion KN-1 Fibre for Sorption of Heavy Metal Cations - I. I. Il'inskii, B. R. Safarov, and M. P. Zverev	203	57
OBITUARY		
In Memory of Rafail Mikhelevich Levit	206	61

Volume 28, Number 4, July-August, 1996

On the 60th Anniversary of the Department of Chemical Fibre Technology at the Ivanovo State Academy of Chemical Engineering - R. P. Smirnov	209	3
History and Prospects for Development of Scientific Research in the Ivanovo Department of Chemical Fibre Technology - L. N. Mizerovskii	213	6
Half Century at the Ivanovo State Academy of Chemical Engineering - A. N. Bykov	220	11
Department of Chemical Fibre Engineering and Composite Materials Technology. The Path of Progressive Development - I. B. Blinicheva	224	14

	Engl.	Russ.
Melting of Binary Mixtures of Low-Density Polyethylene and Alkylbenzenes - L. N. Mizerovskii, V. V. Afanas'eva, and N. I. Lytkina	228	18
Adsorption Power of Fibres and the Nature of the Solvent - A. N. Prusov, A. G. Zakharov, and M. I. Voronova	233	22
Substantiation of the Choice of Textile Auxiliary Products and Technological Parameters for Ensuring Even Dyeing of Polyester Yarns in Packs - V. I. Shkrobysheva, B. N. Mel'nikov, F. Yu. Telegin, and S. G. Belokurov	240	27
Aqueous Solutions of Ammonia – a New Medium in Finishing of Polyester Fibre Materials - N. P. Prorokova, S. Yu. Vavilova, and Yu. A. Kalinnikov	246	32
Dyeing of Polyamide Granulate with Preliminary Treatment with Acetic Acid Solution - V. G. Silant'eva and Yu. M. Bazarov	251	35
Evaluation of the Effect of an Organic Solvent on the State and Diffusion Permeability of Polyethylene Terephthalate - M. V. Semenov and A. V. Ivanov	254	37
Use of Liquid Ammonia to Increase the Quality of Textiles Made of Hydrated Cellulose Fibres - O. A. Belokurova, M. N. Kirillova, T. L. Shcheglova, and B. N. Mel'nikov	259	40
Use of High-Frequency Energy for Activation of Finishing and Dyeing of Textiles - A. L. Nikiforov, B. N. Mel'nikov, and I. B. Blinicheva	264	44
Use of Low-Temperature Plasma in Treatment of Textiles - L. V. Sharnina, B. N. Mel'nikov, and I. B. Blinicheva	269	48
Use of Biotechnology in Finishing Fabrics Made of Cotton and Chemical Fibre Blends - V. I. Lebedeva, A. V. Cheshkova, B. N. Mel'nikov, S. Yu. Shibashova, and V. I. Stepanyan	274	52
Synthesis and Study of Block Copolymers Based on Caprolactam and Polyethylene Glycol - V. G. Silant'eva, N. A. Filatova, and L. N. Mizerovskii	278	55
INTERVIEW		
Professor B. E. Geller, Graduate of the Ivanovo Department of Chemical Fibre Technology Answers Our Questions	282	58

Volume 28, Number 5, September-October, 1996

Some Problems in the Development of the Raw Material Base for Chemical Fibres - B. É. Geller	287	3
Current Production and Consumption of Polyester Fibres and Yarns - É. M. Aizenshtein	300	14
CHEMISTRY AND TECHNOLOGY OF CHEMICAL FIBRES		
Hollow Fibres for Pressure Membrane Separation of Liquids - G. A. Budnitskii and L. P. Perepechkin	305	19
Preparation of Peroxydisulfate Polymer Complexes and Study of Some of Their Properties - É. A. Grigoryan and M. B. Ordyan	316	27
Effect of the Conditions of Spinning of Polyester Fibres on the Longitudinal Velocity Gradient - V. É. Geller	321	30
PROPERTIES AND USE OF CHEMICAL FIBRES		
Inverse Evaluation of the Integral Ordering of the Structure and Defectiveness of Fibres and Yarns for Technical Applications Based on Normalized Values of the Mechanical Properties - K. E. Perepelkin	326	34
Change in the Properties of Polyacrylonitrile Fibre in Replacement of Itaconic Acid in the Copolymer by Acrylic Acid - S. E. Artemenko, L. G. Panova, N. M. Savel'eva, and S. A. Nebalueva	336	42

Engl./Russ.

INDUSTRIAL ECOLOGY

In Memoriam. Gavrilovich Shimko. The Works of I. G. Shimko on Chemical Fibres - S. P. Papkov 339 44
We Remember with Deep Gratitude - A. V. Volokhina 341 45
Fabrication of Chemisorption Amino-Containing Cellulose Fibres - N. Yu. Mosina and T. V. Druzhinina 342 46
Some Properties of Activated Mixtures of Cellulose with Solid Sodium Hydroxide - M. M. Iovleva, V. N. Smirnova, T. A. Belousova, S. I. Banduryan, A. T. Kalashnik, and G. Ya. Rudinskaya 347 49
Synthesis of a Sulfonate Copolymer and Fabrication of a Fibre From It - N. N. Zakharova, E. S. Zashchepkina, and M. P. Zverev 351 52

Volume 28, Number 6, November-December, 1996

On the 100th Anniversary of the Birth of Aleksandr Ivanovich Meos. A. I. Meos – Scientist, Teacher - O. I. Nachinkin and V. E. Romanov 357 3
A. I. Meos Department of Chemical Fibre and Composite Materials Technology at the St. Petersburg State University of Technology and Design - F. F. Bezdudnyi and V. G. Tiranov 361 6
Convective Flows in Solutions of Polyacrylonitrile on Contact with Precipitators - O. I. Nachinkin, L. V. Shvagurtseva, and N. P. Leksovskaya 363 8
Polypropylene Surgical Thread with Complex Biological Activity - V. A. Zhukovskii 369 12
Fibre Sorbents for Local Removal of Heavy Metal Compounds from Washing Solutions - S. V. Burinskii 374 16
Sorption-Active Carbon Materials Based on Linoleic Acid - L. V. Emets, R. M. Levit, I. M. Strukova, E. Ya. Danilova, and A. T. Kynin 378 20
New Complexing Sorbents Based on Polyacrylonitrile Fibres - T. V. Nemilova, L. V. Emets, V. N. Nemilov, and O. I. Nachinkin 381 22
Use of Inorganic Catalysts in Production of Carbon Fibres. Properties of the Sorbents Obtained - A. A. Lysenko and N. S. Markov 387 27
Inertial Forces in Spinning of Chemical Fibres - A. T. Serkov 392 31
Evaluation of the Change in Defectiveness of Cellulose and Acetate Fibres in Thermal Aging with the Scale Dependence of the Mechanical Properties - K. E. Perepelkin, S. A. Baranova, and T. A. Matvienko 396 34
Use of Chemical Fibre Processing Wastes for Fabrication of Thermoplastic Composites - T. V. Nemilova, E. P. Romanova, T. V. Zosina, and G. I. Tsarev 402 39
New Methods of Utilization of Fibre Wastes - G. V. Ivanova, N. I. Sverdlova, and V. P. Gavrilova 409 44
About the Teacher 413 48
